**DETAILED ACTION**

**And**

**NOTICE OF ALLOWANCE**

1. **Claims 1, 2, 4, 5, 8, 11, 12, 16, 17, 18, 19 and 20** are allowed.

**Reasons for Allowance**

2. The following is an examiner's statement of reasons for allowance:

**2.1** The following limitations, in combination with other limitations are non-obvious improvements over the prior art, *"issuing an additional clock credit for each simulation module when...execution is completed"* in combination with, *"halting occurring in response to detecting a synchronization point for synchronizing a plurality of simulation modules."* The prior art does not teach or make obvious the combination of the limitations thus disclosed in Applicant's instant amendments. Further, these amended limitations in combination with Applicant's arguments found on *page 11* of the *7/22/2004 response*, specifically where applicant argued, *"For example neither document (Schaumont, Bennington and Bershteyn) taken alone or in combination, teach or suggest, issuing a further clock credit."* (Examiner paraphrased). These arguments in combination with the instant amendments, have been persuasive, to overcome the art rejections applied during this Applications prosecution. An updated search failed to disclose an art reference that is anticipatory or obvious over the amended claims.

**2.2** Dependent **Claims 2, 4, 5, 12, 16 and 17** are allowed as they depend from allowed base claims.

**2.3** Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
